EDUCATIONAL QUALIFICATIONS

Passing Year	Degree/Certificate	Institute/School	Percentage (%)
2021-2025	B.Tech (IT)	Greater Noida Institute of Technology (Engg. Institute), AKTU	70.30
2020	Intermediate (12 th)	DNIC Gaurahi Mahadev Tekardih Jaunpur (UP)	80.80
2018	High School (10 th)	DNIC Gaurahi Mahadev Tekardih Jaunpur (UP)	84.66

TECHNICAL SKILLS

- **Languages:** PHP, JavaScript, SQL, C++
- **Frameworks & Technologies:** Laravel, CodeIgniter 3/4, jQuery, AJAX, REST APIs, AMP
- **Frontend Development:** HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive UI/UX Development
- **Backend & Database Management:** MySQL, Database Optimization, API Integration, Authentication Systems, Role-Based Access Control (RBAC)
- **Tools & Version Control:** Git, GitHub, VS Code, MySQL Workbench, SDLC, Deployment & Maintenance

EXPERIENCE

1. Full stack Developer | Webpulse Solution Private Limited

(Technologies: PHP, Laravel, CodeIgniter 3/4, REST APIs, AMP, MySQL) (Feb-2026) – Present

- Developed and maintained scalable enterprise web applications, B2B marketplace platforms, and business automation solutions using PHP, Laravel, and CodeIgniter.
- Integrated RESTful APIs, third-party services, authentication systems, and dynamic user interfaces to enhance application functionality and user experience.
- Designed and optimized MySQL database architectures, improved application performance, and implemented secure role-based access control mechanisms.
- Contributed throughout the complete Software Development Life Cycle (SDLC), including requirement analysis, development, testing, deployment, maintenance, and version control using Git.

2. Full stack Developer | Wedigital India

(Technologies: PHP, Laravel, MySQL) (Exp - 1.4 Years)

- Developed and maintained custom web applications, business websites, and e-commerce platforms using PHP, Laravel, and MySQL.
- Implemented API integrations, responsive interfaces, and dynamic functionalities to improve user experience and business operations.
- Managed backend development, database operations, and application enhancements to ensure performance and reliability.
- Participated in end-to-end project development, including coding, testing, debugging, deployment, and ongoing maintenance using Git.

PROJECTS

1. Get Manufacturers – B2B Manufacturing Marketplace Platform | [Live Portal link](#)

Technologies: CodeIgniter 3, PHP, MySQL, REST APIs, jQuery, AJAX, Bootstrap, AMP

- Developed a large-scale B2B marketplace and business automation platform similar to **IndiaMART**, connecting manufacturers, suppliers, and buyers across India.
- Managed and optimized **50,000+ category**, manufacturer, and product listings through scalable database and search architecture.
- Implemented role-based access control for Super Admin, Admin, Buyer, Seller, Manufacturer, and Member accounts.
- Integrated **WhatsApp OTP, ZeptoMail, Domain Add** and Document Verification **APIs** for secure authentication, communication, and onboarding workflows.
- Built lead generation, RBAC, RFQ management, **premium membership plans, dashboard analytics, activity logs, rate limiting**, and advertisement management systems.
- Developed an automated website builder enabling manufacturers to create, customize, and upgrade their business websites instantly.
- Supported **300+ active users** through performance optimization, responsive design, manufacturer certification programs, and scalable administration tools.

2. Auditify Security – Cybersecurity Services & Compliance Management Platform | [Website Link](#)

Technologies: Laravel, PHP, MySQL, JavaScript, jQuery, AJAX, Bootstrap, REST APIs

- Developed a professional cybersecurity services platform offering **VAPT (Vulnerability Assessment & Penetration Testing), Compliance Consulting, Security Audits, and Managed Security Services** for enterprise clients.
- Built a dynamic multi-level navigation and service management system for cybersecurity solutions **including SOC 2, ISO 27001, GDPR, HIPAA, PCI DSS, NIST, Red Teaming, Cloud Security**, and Application Security Testing services.
- Implemented lead generation, consultation booking, inquiry management, contact forms, and customer engagement workflows to streamline client acquisition and service delivery.
- Developed an admin management system with content management capabilities for services, products, partners, blogs, and website resources, enabling efficient business operations.
- Optimized website performance, responsiveness, SEO structure, and user experience to support secure digital presence, brand visibility, and business growth.

3. Myra Luxe – Skincare E-Commerce & Appointment Management Platform | [GitHub](#) | [Website Link](#)

Technologies: Laravel, PHP, MySQL, Bootstrap, jQuery, AJAX

- Developed a dynamic skincare e-commerce platform using Laravel, PHP, MySQL, AJAX, and Bootstrap.
- Implemented product catalog management, AJAX-based filtering, and shopping cart functionality.
- Built an online appointment booking system for skincare consultations and services.
- Developed a role-based admin panel with complete CRUD operations for products, appointments, and content management.
- Enhanced platform performance and user experience through responsive design and optimized backend workflows.

ACHIVEMENTS

- **300+** Problem solved on various platform
- **3rd Rank** in Internal SIH (Smart India Hackathon) organized At the Institute level **Hackathon**.
- **1st Rank** in coding competition program (**Platform-Hacker Rank**) organized At the Institute level 2024.
- **2nd Award** for presenting best Research paper idea in Abstract competition scientific program.
- Certificate of Excellence in the Development field of full stack development on UDEMY.
